

SELORM FEFETI

New York, NY | 503-421-4381 | selormfefeti@gmail.com | <https://www.linkedin.com/in/selormfefeti/>

Product Manager with 10+ years driving 0→1 launches and AI-powered features for FinServ and compliance platforms. Track record of translating regulatory requirements into revenue-generating products, with \$1M+ in cumulative ARR delivered across enterprise and SMB segments.

EXPERIENCE

Intapp

New York, NY

AI-first SAAS solutions for global financial and professional services industries

Platform Product Manager

09/2021 – 06/2026

- Drove 30% of participating client ARR by building audit trail and user activity tracking solutions for regulatory compliance, as product lead for the enterprise client solutions suite.
- Reduced manual compliance review time by productionizing LLMs for real-time risk detection, pattern recognition, and automated compliance checks across the platform.
- Improved operational efficiency and reduced overhead by launching a client-facing portal for self-service site management and backend operations.
- Cut engineering and support tickets 50% by shipping native troubleshooting tools for 80+ teams, as lead for the global developer platform.
- Generated \$500K in new sales pipeline and secured 20+ qualified demos as subject-matter expert at industry events.

Compliance Solutions Strategies

New York, NY

Global provider of cloud-based regulatory technology solutions

Product Manager

04/2017 – 08/2021

- Generated \$300K in annual revenue within 12 months by repositioning the firm's legacy Shares Outstanding product around a proprietary machine learning data repository.
- Acquired 35 new clients and drove \$600K in ARR by spearheading 0→1 development of an employee trading monitoring module aligned to SEC regulations.
- Directed vision, roadmap, go-to-market strategy, and pricing as product lead for the first customizable Form CRS filing solution for the SMB segment.
- Strengthened customer engagement by partnering directly with clients across financial services and legal sectors throughout pre-sales demos, onboarding, and support.

Dataminr

New York, NY

AI-powered intelligence platform delivering early signals of emerging risks, events, and threats

Product Associate

04/2013 – 03/2016

- Early-stage hire instrumental in launching the firm's first industry-specific product; partnered cross-functionally across product, business, and client-facing teams to build tools that strengthened client engagement.
